# Valentyn Duritsyn

Aspiring front-end developer eager to start a career in web development. With a strong foundation in HTML, CSS, and React, I am committed to crafting responsive, user-centered designs. Passionate about learning and contributing to dynamic projects, I am looking for an internship where I can apply my skills and grow within a collaborative team environment.

## Experience

### July 2024 - Present

#### Web developer

Worked with:

Wordpress:

- Bricks
- Elementor

Vanilla JS

Frappe Framework

React

HTML, CSS, SCSS, Tailwind CSS, styled components

Git, Docker

### 2023 - 2024

#### Self-employed web-developer

As a freelance web developer, I have successfully delivered projects using React, HTML, and CSS. My responsibilities included designing and implementing responsive and user-friendly web interfaces, collaborating with clients to understand their requirements, and ensuring the final product met their expectations. This role has honed my skills in front-end development, problem-solving, and client communication, enabling me to deliver high-quality web solutions efficiently.

### 2021 - 2022

#### Computer Assembly Specialist

As a PC Assembly Technician, I specialized in building customized computer systems for clients based on their specific needs and preferences. This involved selecting compatible hardware components, assembling and configuring the systems, and conducting thorough testing to ensure optimal performance and reliability. My role also included troubleshooting and resolving any hardware issues, providing clients with technical support, and offering advice on upgrades and maintenance. This experience enhanced my technical skills, attention to detail, and ability to meet client expectations through quality workmanship.
